Education

University of Turkish Aeronautical Association
Bachelor of Science in Computer Engineering
• GPA: 3.08 / 4.00

Ankara, Turkey
Expected Graduation: June 2028

Projects

Teknofest Rocket Competition

Ankara, Turkey

Team Member (Software Developer)

October 2025 – Present

- Programmed the primary flight computer in C to manage the launch and trajectory of a 1,000-meter altitude rocket, ensuring continuous integration of sensor data at **20 Hz**.
- Engineered an automated fail-safe recovery system capable of detecting flight anomalies within **200 milliseconds** and executing secure landing procedures.
- **Designed and built** a custom ground station interface using Python to receive, process, and visualize **real-time** telemetry data for over 10 critical flight parameters.

Personal Portfolio (alicelik.dev)

Remote

Full Stack Developer

August 2025 – Present

- **Designed and developed** a responsive personal portfolio website using **React** to showcase software engineering projects and technical skills, achieving a **95+** Lighthouse performance score.
- Implemented responsive web design principles using Tailwind CSS, ensuring cross-browser compatibility and optimal user experience across both desktop and mobile platforms.
- Configured a CI/CD pipeline for seamless deployment and hosting via Vercel, reducing deployment time to under **2 minutes** and maintaining strict version control with Git/GitHub.

2025 International UAV Competition Rotary Wing Category

Ankara, Turkey

Team Member (Software Developer)

May 2025 – September 2025

- **Developed** an autonomous flight control algorithm using Python and DroneKit to read, process, and manage real-time UAV telemetry data with a **95% transmission success rate**.
- **Implemented** a continuous computer vision pipeline using OpenCV to analyze camera feeds at **30 FPS**, dynamically triggering servo mechanisms with sub-second latency.

Leadership & Activities

Google Developer Groups (GDG) On Campus - UTAA

Ankara, Turkey

Organization Member

October 2025 – Present

- Participated in technical workshops and seminars, actively engaging with the developer community on modern software practices.
- **Delivered** comprehensive "Java 101" training sessions to over **15** students, teaching core object-oriented programming (OOP) principles and syntax fundamentals.

Skills & Interests

Programming Languages: JavaScript, Python, Java, C#, C++, C

Web Technologies & Frameworks: Node.js, React.js, HTML, CSS

Databases & Tools: MySQL, SQLite, Git, GitHub, Vercel, BAT Scripting

Spoken Languages: Turkish (Native), English (Upper-Intermediate / B2+)
